

DID YOU KNOW

The Student Union is active in the fields of students' education, social life, health and well-being, accommodation, campus and working environment. JSU also represents our student community on a national level.

Equal Treatment and Discrimination are among the JSU Board's most discussed topics. We encourage everyone to bring their thoughts forward.

The JSU Board is in charge of directing, monitoring and shaping the Union's activities.

For almost 8 hours during 3 regular Board meetings (since the beginning of the semester), the Board discussed 27 matters that all aim to improve the student life.

Openness and Transparency are crucial values of the Student Union's operations. We want every student to feel represented.

Hälsosektion, took on operations at the Cafeteria, "Hälsokoppen" at the School of Health and Welfare. The Student Union supports this endeavour in every possible way. We love it!
