I am applying with great enthusiasm to become a JSU Board Member for the 2025/2026 school year. When I began my university studies at JU, I wasted no time in becoming active in the student life by becoming the Head of International at JSA in 2024. This experience equipped me with many skills and a deepened understanding of how the student life is organized between JSU and the school associations. With one final year remaining at JU, I have developed a passion to not only continue serving the JIBS student life, but would like to impact JU life as a whole for all students. Hence, I believe the JSU board position suits my ambitions and given my relevant experience I believe I would be a strong candidate for this position.

To whom it may concern,

I am writing to express my interest in the position of Student Representative on the JSU Board. As a Bachelor's student in International Economics at Jönköping University, I am eager to take on a role that helps shape the students experience and contributing to the long-term development of our Student Union.

Although I previously applied for a position within the student association and was not selected, that experience only deepened my desire to get involved. It also encouraged me to seek out new opportunities where I can gain experience, learn more about how student organizations work, and grow both personally and professionally.

With a background in accounting, and all the information I have gained from my economic degree, I have learned how to work in structured environments that demand accuracy, initiative and good organization. I believe that these skills would allow me to contribute meaningfully to responsibilities like establishing internal processes, reviewing documentation, and supporting the strategic development of JSU.

What interests me about this role is the opportunity to be involved in different areas of the organization such as helping out everybody when needed, contributing to the implementation of the Plan of Action and just meeting new people. I see this as a valuable way to broaden my understanding of how student organizations operate while contributing where I can. Being part of a team that works toward shared goals also aligns with my interest in gaining practical experience in a collaborative setting.

As someone who moved to Sweden alone, I've become more independent, resilient, and eager to build meaningful connections within the university community. I believe that serving on the JSU Board is not just a role but also a chance to help others feel included, supported, and heard.

Best regards,

Anastasia Negru
